***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to a process for preparing an alpha, beta-unsaturated cyclic or acyclic carbonyl compound by dehydrogenation of a corresponding saturated carbonyl compound in the presence of a heterogeneous dehydrogenation catalyst. The closest prior art of record, U.S. 6,433,229 and WO 00/55108 teach process for preparing alpha, beta-unsaturated ketones by dehydrogenation of the corresponding saturated compound with a heterogeneous catalyst; however, the closest prior art fails to teach or *fairly* suggest using a heterogeneous catalyst comprising platinum and/ or palladium, *and tin* on an oxidic support, as claimed herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
